Sakshi.

Creative Developer & AI Enthusiast

B.Tech CSE AIML | Batch 2029

VISION

Bridging Logic and Visual Excellence.

I believe that technology should not only be functional but breathtaking. In my first year of B.Tech, I am exploring the deep layers of Artificial Intelligence to build products that feel alive.

This portfolio is a culmination of my academic foundation and my creative drive.

ACADEMIA

Manav Rachna University

B.Tech CSE (AI & ML)

Timeline: 2025 - 2029

Focusing on Data Structures, Discrete Math, and Neural Networks. Consistently maintaining top-tier academic performance while leading local student tech circles.

ARSENAL

Artificial Intelligence

Data Analysis

Proficient in Python libraries like NumPy and Pandas for processing complex datasets.

Predictive Modeling

Exploring regression and classification algorithms for real-world impact.

ARSENAL

Frontend Engineering

UI Architecture

Building high-performance interfaces with JavaScript and optimized CSS.

Design Systems

Creating consistent, reusable component libraries with a focus on Glassmorphism.

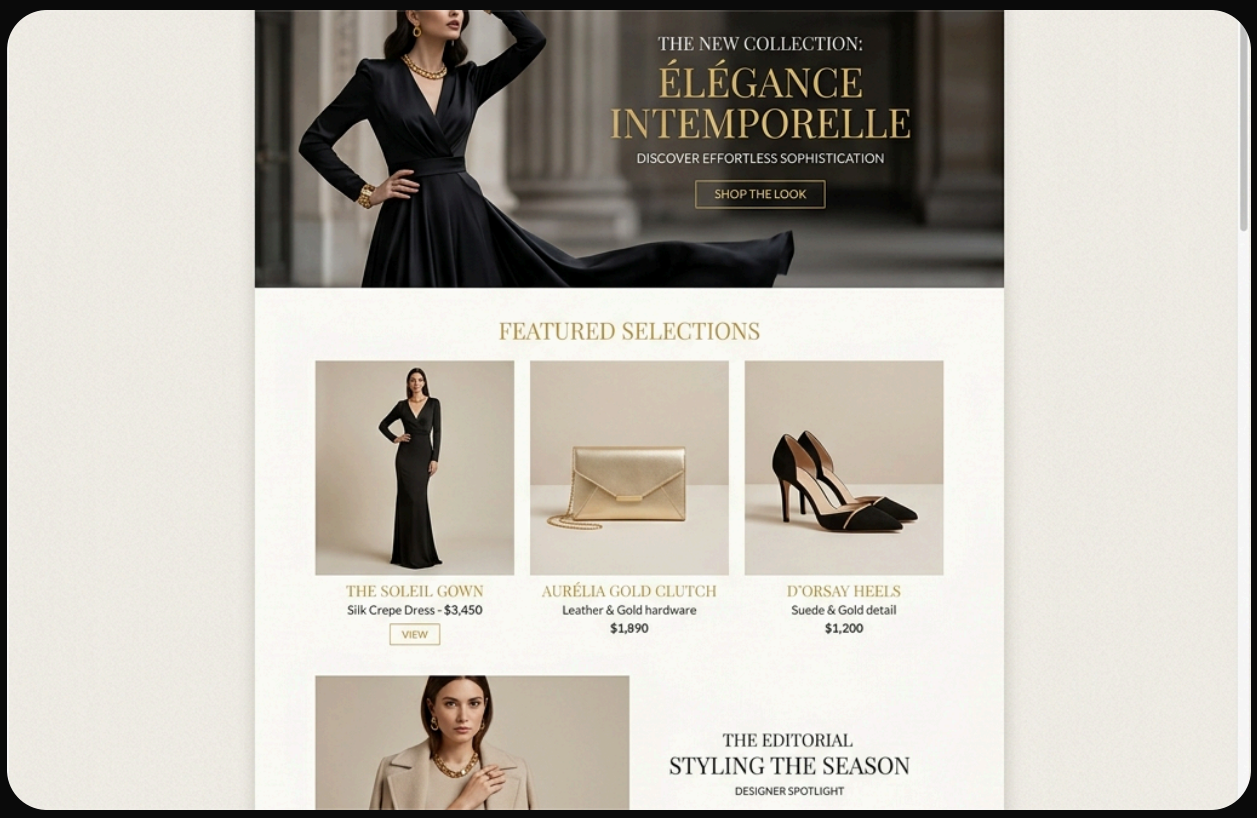
SHOWCASE

Lumina Dashboard

A flagship analytics platform designed for real-time AI model monitoring. Features high-density charts and a sleek dark-glass interface.

SHOWCASE

Nova
E-commerce



A luxury fashion experience that prioritizes minimalist design and ultra-smooth user transitions. 2026 Production.

REFLECTIONS

Tech & Research

"The 2029 Vision"

Published research interests in how AI will automate frontend layout generation by the time I graduate.

Exploring the ethics of AI and its role in modern workforce transformation.

NETWORK

Community Impact

Active member of the MRU Tech Club. Collaborating with cross-disciplinary teams to integrate AI solutions into university infrastructure projects.

Leadership

Leading the Freshman Coding Sync circle.
